G..... threw the market into somewhat of a Dis. Sec threw the market into somewhat of a turmoil. There was notable subsidence when the authorized statements were made of the financial operations about which the speculation centered, followed by a violent break in prices at the end of the day. The comparison of these official statements with the rumors which had preceded them disclosed so much of exaggeration and distortion of the rumors that there was a disposition to hesitate about following a leadership in the market founded on such motives. The tone of the market thereupon fell into an unsettled state, and there was a notable contraction in the dealings. Assertions were published over night that the St. Louis & San Francisce bonds had been sold to the amount of \$45,000,900, sufficient to provide for all maturing obligations of the company falling due this year and next, and to furnish resources for extensive projects in contemplation. These reports pointed to the banking nouse which usually acts for the Harriman interests as the source of this financial assistance, and the inference was broadly conveyed that association for mutual advantage between the Harriman and Rock Island systems was to be assumed as a consequence.

and Rock Island systems was to be assumed as a consequence.

Speculative enthusiasm, after rushing into the market during the first hour, was somewhat dampened by the formal statement of Kuhn, Loeb & Co., the Union Pacific bankers, that they had withdrawn from the St. Louis & San Francisco financing, which had been taken over by Speyer & Co., who have acted in Rock Island financing on previous occasions. The incident was regarded as involving some show of friction rather than an approarament of the financial groups concerned. The secondary effect on speculative sentiment was harmful rather than beneficial. Rumors were also circulated of a project for the formation circulated of a project for the formation of a holding company to Lring the vacious Gould properties into closer relations. These also met with disclaimers from authoritative sources.
